The highest possible Slip-resistance

	Ramp-Oil	Pendulum
Best	R13	P5
Better	R12	P4
Good	R11	P3
	R10	P2

The homeAdvanced range meets the **highest possible rating** in both tests achieving both a **P5** and **R13** slip resistance score!

ASA & PVCORE

For over 15 years, new decking materials have been developed using Timber and plastic blends.

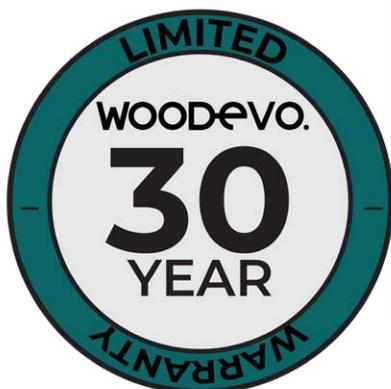

However homeAdvanced is made with advanced materials with new properties.

PVCORE - The core is completely Timber-free!

Strong and light with low expansion and easy installation!

ASA - The surface is a naturally long-lasting and UV resistant material that feels like natural timbers!

Width **200mm**
